I'm not one for turn based strategy, but this is a game I love despite being one. The plot is what kept me interested and playing after facing the annoyance of turn base for the first time. Nice and bright graphics from an era that still put their heart in designing the main menu. The one thing I found frustrating years ago when I play this for the first time was the looped animations. Still, I highly recommend playing it!

If you're looking for something to relax: just put the difficulty on easy, sit back and auto battle your way though.. Arguably the worst of the Black Mirror trilogy. The ending feels extremely rushed and forced.

Unfortunately you still play as Darren/Adrian who simply got nothing on good old beloved Samuel from the first Black Mirror. If you haven't played Black Mirror 2, you definitely shouldn't play this, because you're gonna have absolutely no idea what is going on.

I'll still give it a pass, because it's not really a bad game, but it was definitely my least favorite out of the series.. Interesting Video. Surprisingly fun, it's simple but altogether with all the dynasties it has a lot of variety. Easy to begin and so entertaining, once you start playing you just can't stop.

Pros: It is really a lot of fun, it has a lot of different characters with their own style of playing each one and the all stars mode is just terrific.

Cons: It is more enjoyable with a controller, you can play it and have a lot of fun with the keyboard. But if you do have a controller you should use it in this game.. Who doesn't want to play god for once? In this game you have the chance to do so, by clicking..well..on rain and sandstorm..and...yeah that's it kinda?

<https://youtu.be/sGXh8fjmU-E>

Really..I don't know how to subscribe that. You click on "Do some Rain", "Do some drought" - which was the ugliest font I have ever seen. In the background you can here the sample (bad quality) of a club song.. Can't play online with friends. Horrible.. Great little point and click.. Reminds me of those mobile games I do not like. Also I'm really terrible at this, which hardly makes anything any better. It's like bejeweled with a twist, kind of. Not my cup of tea.. Your basic average joe's pinball table only worms themed. I do not enjoy pinball all that much.

Tilted Mill Entertainment was born out of the ashes of Impressions Games and Children of the Nile is similar to their classic city building games Caesar, Zeus and Pharaoh but doesn't play exactly the same way. The basic structure of the game is the same but the city buildings and dynamics are altered so that you have to micromanage a bit more. But if you enjoy these games, you enjoy micromanaging cities so it's not a negative aspect.

The production values have taken a hit from the days of Impressions Games, but that's just an unfortunate side effect of having less money for development. This is a very solid city building sim.. The game is so cute and the graphics are great :) i like the story so far but i've only finished a small part of it and can't wait to see in what adventure will Charlotte be involve: Here is a small lp :

[I've been looking forward to a VR murder mystery like this for a long time.](#)

[The experience is mostly about observing the characters, but there is some interaction in the form of item hunting for achievements. The mansion is large with many secrets so for the completionist there's a lot to find.](#)

[If you enjoyed Quanero VR, then you'll love this.](#)

[This feels like the future of entertainment. I recommend it.](#)
